

Wednesday 7th October @ 7:30 pm.

The Story of Elizabeth Garrett Anderson

Elizabeth Garrett Anderson, is regarded as the first female to qualify as a doctor in the UK. The talk looks at both her and her influential family and the "Firsts" she achieved. However she was not the first female doctor globally. Her career path was influenced by others, however she helped women following her shape the role women have in medicine and around the world today.
